**Subject:** Important Info about the FLHMOCAP.com website

Dear Mr. Platt,

Happy New Year and thank you for your continuing business with 3W Studios.

We are writing to let you know that the website for Florida Health Maintenance, [flhmocap.com](http://flhmocap.com), is now running in an outdated form of the Drupal Content Management System (version 6 or earlier). Drupal 6 per se will reach its end-of-life on February 24th, 2016. Upgraded versions of Drupal, both 7 and 8, will remain active.

What does this mean for Florida Health Maintenance? The website will continue to function, but will no longer be supported or updated by Drupal to meet ever-changing web standards and security advances that protect against site defacement, hacking, malware, malicious redirects, etc.

With this in mind, 3W Studios is offering to upgrade [flhmocap.com](http://flhmocap.com) to Drupal 7 or 8 as soon as possible. The upgrade will enable you to maintain optimal web browser compatibility and security, among other advantages.

For this service, we estimate that your site will require 10 hours of work at a cost of \$1,500.

If you would like to receive the upgrade, please contact 3W Studios at your earliest convenience.

For more information about the upgrade, see this article provided by the Drupal.org team:

<https://www.drupal.org/drupal-6-eol>

Thank you again,

Laura Mauney
